

Professional Development Programme

Learning about work | For work | Through work

Purpose

Through the professional development programme there is an opportunity for all teaching staff, school managers, careers advisors and lecturers to attend individually tailored or group placements in relation to a specific curriculum area.

Activity

Individually tailored placements within a specific type of business can be arranged for teaching staff wishing to update their specialist knowledge of business functions. The placements can be used to develop learning materials alongside employers which will support curriculum delivery in meeting the 14-19 agenda.

Various group placements supporting the curriculum and management based courses are held throughout the year. Information regarding these opportunities is regularly distributed to schools and features on the NEBA website with appropriate booking details.

Learning Outcomes

Attendees will:-

- Have updated knowledge of the local labour market in order to enhance curriculum delivery
- Enhance and develop a fresh perspective on leadership and managerial issues
- Have the opportunity to support curriculum development and the specialised diplomas
- Create valuable links between education and employers to support students' enterprise and work-related learning requirements
- Create valuable curriculum networks across the East Midlands
